October 27, 2010

Terry assisted us with the sale of The Commodore's Club Marina property including the CPWW Building in the flats. This assignment had location, economic, environmental and market challenges. With Terry and his team, we were able to work through a due diligence process that lasted over a year and transferred the property to a unique buyer who paid us the price our partnerships were hoping to achieve. I would recommend Terry and his team to anyone thinking of selling their property.

David S. Calabrese
